Stealth’s i-Fit line of pelvic belts, vests, chest straps and foot positioners are intended to be used as a way to increase trunk stability, aid in properly aligning the pelvis, and provide a more correct clinical posture in a wheelchair. With i-Fit, stability is a snap!

**Breathable Material**
Constructed from a unique open cell material, that allows air to circulate and moisture to escape. This contributes to reduced heat buildup and a cooler, drier, and more comfortable user experience.

**Offset Belt Anchors**
A slight offset allows for easy adjustment without loosening the anchor bolts.

**Swivel Buckles**
Swivel buckles on the lower attaching straps allow self adjustment supporting the correct angle of attachment.

**Dynamic Support**
Dynamic Support provides postural control, a degree of trunk movement, and a softer fit on the body. The user has movement within a limited range encouraging return to their neutral position.

**Structured Support**
i-Fit structured material is more resistant to high tone aiding in the maintenance of correct posture.

**Full Length Attaching Straps**
Provides for proper positioning of the side release buckles, ensuring that the posture support maintains adjustment.
### Posture Support

- Breathable Material
- Dynamic & Structured Support
- Classic & Contoured Styles
- Swivel Buckles
- Full Range of Sizes
- Offset Belt Anchor
- Large Neck Cavity
- Full Length Attaching Straps

### Offset Belt Anchor

### Large Neck Cavity

### Full Length Attaching Straps

---

### Classic Style

The Classic Style offers a large padded surface for the thoracic area.

### Contoured Style

The Contoured Style has a narrowed section over the sternum that allows a better fit for females, G-tube users or those requiring a smaller support surface.
